

BRAINSTORM PROJECT IDEAS

1. Read through the city challenges (A), issue areas (B) and technologies (C) on the wall. You have 10 minutes.

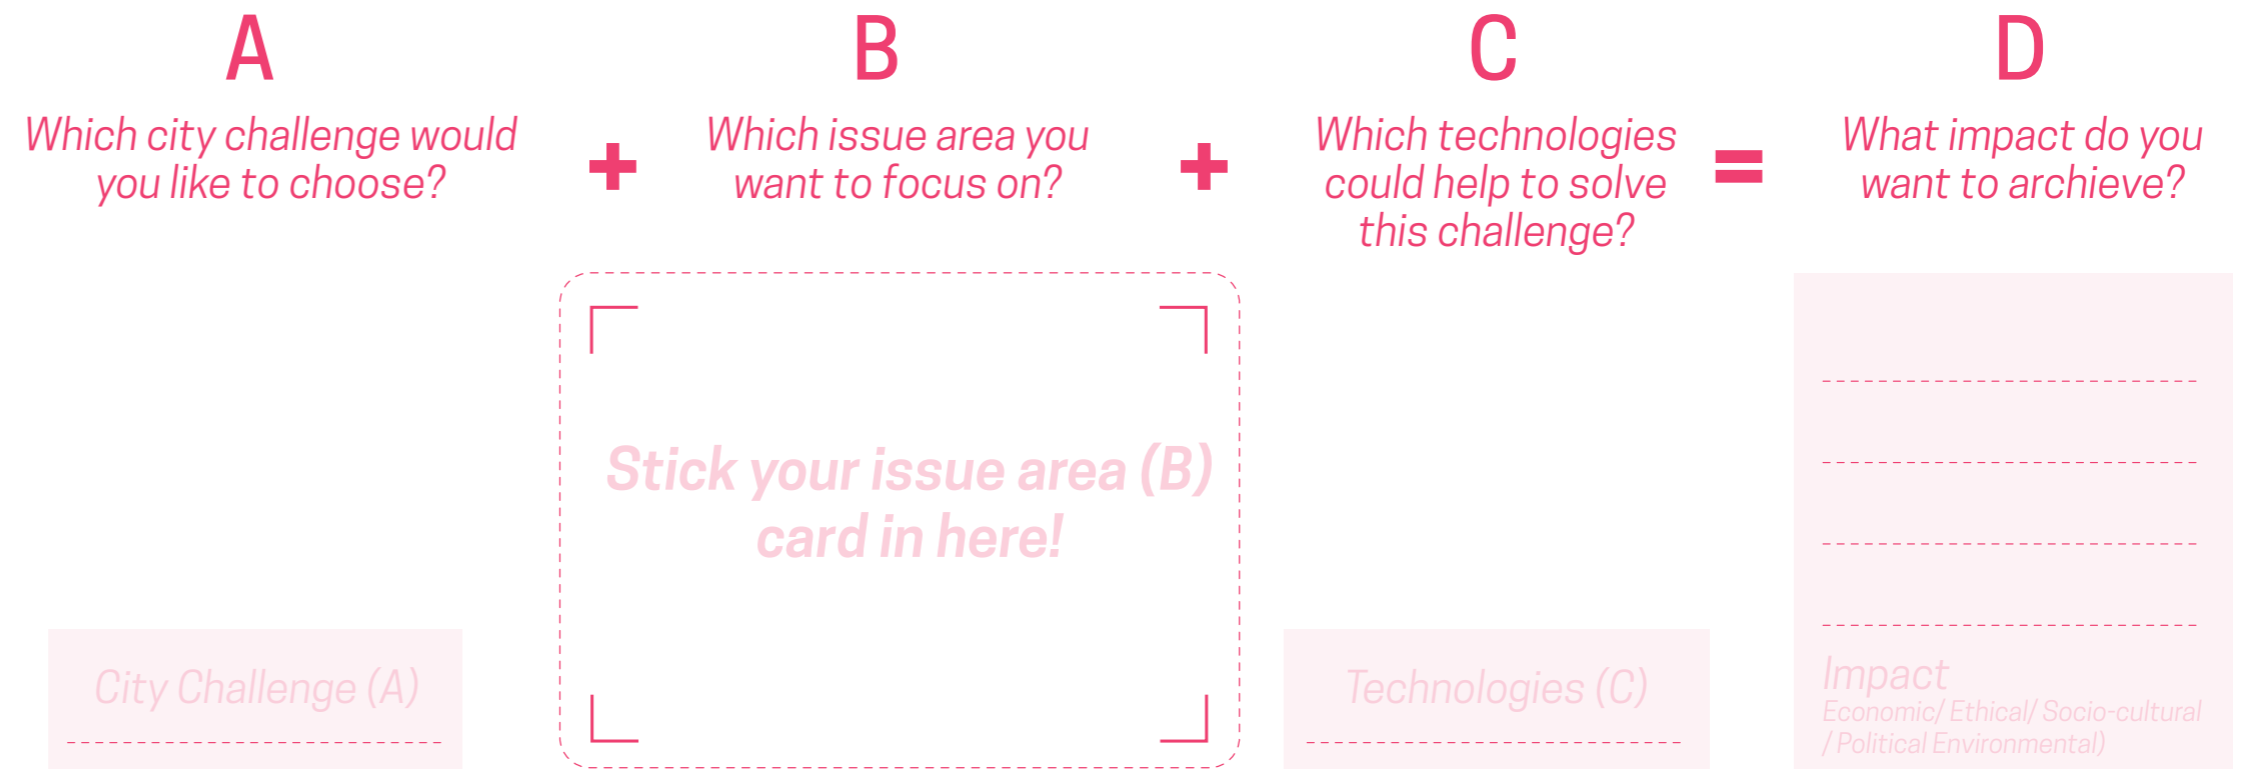

2. Complete A, B, C and D.

3. Generate three project ideas. Consider what resources you would need for each project idea.

4. Present your most promising idea to your team (who already shares the city challenge with you), discuss your ideas and decide which one you want to explore further.

What are your project ideas?

Idea 1. draw / write / create a diagram

Idea 2. draw / write / create a diagram

Idea 3. draw / write / create a diagram

What resources do you need?

Money / data / skills / manpower / space / machines
